Beard Shampoo

Beard Shampoo is a real godsend for deep cleansing of the face and hair. It cleanses dirt and excess oil without damaging or drying out the hair. It has an incredible fragrance and excellent lather.

Ideal for deep cleansing and removing excess oils without drying and damaging the beard. Its specific professional formula reduces itching and gives the beard a healthy, natural look.

Its fragrance is rich and intense but not very persistent.

This is for 2 main reasons:

The beard shampoo is mainly used in the evening or in the morning.

If used in the evening, its pleasant and intense fragrance will accompany you until bedtime but no longer, an intense scent could disturb your well-deserved rest.

If used in the morning, the beard shampoo will always be accompanied by the conditioning balm, beard oil or both and it is the oil that will perfume your beard throughout the day.

Use:

A couple of strokes of the dispenser and a damp beard will be enough to start the beard cleansing process. Massage deeply with your fingertips and rinse with warm water! Dry with a towlette or hair dryer.

Shaving soaps

The Goodfellas' shaving soaps are divided into 3 different types:

Animal-based (Tallow) to which belong the Shaving soap Inferno, Shibusa 2 and Tallow no.1

Vegetable based with mare's milk: Re Nero

A plant-based AJ1, consisting mainly of fine oils such as Argan and Jojoba. To this category belong: Abyssos, Orange Empire, Sea Citrus, Solo, Savage, Royal Lime, Alpine Pine, Furiah, Chronos, Amber Fougere.

The AJ-1 plant formula is based on 4 certified pure oils that account for more than 35% of the total formula.

- Argan Oil

- Jojoba oil

- Pure Sweet Almond Oil (note: in its pure state, this oil has no allergens)

- Pure Coconut oil

Thanks to the active presence of beneficial oils, the AJ-1 formula provides the skin with moisture, protection, elasticity and smoothness.

The study and selection of the cosmetic raw materials to be used have always been the focus of The Goodfellas' Smile team.

And constantly working to improve, making their products qualitatively in line with the expectations of their customers (who are increasingly attentive to the quality and materials used in the products they decide to buy) is imperative.

BRASKEM JARS

Solo uses the innovative BRASKEM Bio Plastic jar derived from a renewable vegetable source - sugar cane. This environmentally friendly choice will allow The Goodfellas' Smile to relieve the environment of 1.25 Tons of plastic each year.

Each biopolymer jar is recognisable by the I Am Green label on the side or back of the jar.

Saves freshness:

The Goodfellas' Smile shaving soaps are sealed internally by a special freshness-saving paper that will guarantee the consumer an unaltered product until it is opened.

Pre-shave and Astringents

Pre-shave Dawn of Glory

Dawn of Glory is the pre-shave you don't expect.

Produced by the Italian brand The Goodfellas' Smile, Dawn of Glory is a refined mix of precious natural raw materials put at the service of manual shaving.

Its fast-acting semi-liquid-gel consistency softens and lifts the hair while protecting the skin and soothing it.

Totally odourless, it in no way alters the fragrances of your favourite soaps and aftershaves.

Dawn of Glory pre-shave exponentially increases the shaving performance of all shaving soaps.

If needed, Dawn of Glory pre-shave can be used on its own for a fast, irritation-free shave.

To use Dawn of Glory pre-shave to its full potential, we recommend moistening your face, pouring 7-10 drops of the gel onto the palm of your hand and applying it to your face in circular motions, then wait 30-60 seconds before applying the shaving soap.

Proceed with shaving.

ESSENTIAL STRUCTURE OF DAWN OF GLORY PRE-SHAVE

Calendula officinalis flower extract:

Calendula flower extract helps to better prepare sensitive and more inflammation-prone skin for the action of the razor.

Chamomilla recutita flower extract:

Chamomile flower extract in cosmetics is used for its calming and soothing effects, as well as its typical anti-inflammatory, antiseptic and healing properties. Its high bisabol content actively contributes to softening the skin.

Malva sylvestris flower leaf extract:

Mallow extract, as well as Calendula and Chamomile (albeit in different proportions) is also an extremely effective natural anti-inflammatory, but in our composition it mainly has an important moisturising and emollient effect on the skin.

Aloe barbadensis leaf juice:

Aloe Vera juice, rich in vitamins, enzymes and essential amino acids, protects the skin from dehydration as well as soothing and refreshing it.

Thymus vulgaris leaf extract:

Thyme is a natural anti-inflammatory, antibacterial and antifungal.

Fucus vesiculosus thalle extract:

A seaweed extract, Fucus, besides being soothing, softens the skin by smoothing it, reducing unevenness and making it more even. Preparing it for razor action in the best possible way.

Cucumber facial tonic

It visibly improves the quality of the skin, making it brighter, more moisturised and healthier.

Himalayan Cucumber Facial Toner is non-drying and acts as a perfect remedy to moisturise the skin throughout the day, purifying, balancing and renewing it.

The skin structure will be visibly smoother, pores will appear smaller and the skin tone will appear more even.

The Cucumber Facial Toner from The Goodfellas' smile is made from 100% naturally sourced ingredients.

Specifications: The astringent, toning, cleansing, soothing and refreshing properties of cucumber meet the anti-inflammatory and regenerating action of distilled Witch Hazel flower.

The facts: The Goodfellas' Cucumber Facial Toner is Alcohol-free, Phthalate-free, Paraben-free and Gluten-free. Dermatologically tested, it is considered safe for even the most sensitive skin. Cruelty-Free: Not tested on animals. Vegan Formula: No ingredients of animal origin.

Cucumber Facial Toner Provides all-day hydration. Non-comedogenic. Gentle, does not dry out the skin.

How to use Cucumber tonic:

Apply with a cotton pad to the face to cleanse, balance, soften and moisturise the skin.

Use at any time of day to leave your skin feeling refreshed, renewed and healthier.

Use after shaving for immediate relief.

Used as a compress, it regenerates and soothes redness, reduces swelling and lightens skin blemishes.

Key ingredients:

Himalayan cucumber extract

Refreshing and soothing, cucumber extract is known to add moisture to the skin, relieve swelling and redness and actively combat oily skin.

Hamamelis Virginiana

Decisive in treating inflamed, irritated and damaged skin. Due to its rich tannin content, it also possesses powerful antioxidant properties that can help protect the skin from damage when applied locally.
